The cartridges and bulk containers are completely engineered to provide the best and most reliable bulk ink system possible.

This flyer costs
30 cents
with OEM carts or
3.5 cents
with our system
based on printing
1250 flyers per
month

SAVE Hundreds of \$\$\$ by buying bulk ink!

Example of costs:

A cartridge has about 1/2 oz of ink
24 oz of ink equals about 48 cartridges
At \$12.34/cart the total cost is \$592
Save money - buy bulk ink!

Solutions to printing hassles

1. You are about to print a large job and you have only 15% ink left. So you replace the carts and throw away ink so you can finish the job.
2. You must have 35 copies of a flyer and run out of ink at 25. Now you must replace carts and be late to your meeting.
3. You have time to replace the empty cart, but another one only has 15% ink left so you replace it too and throw away more ink.

A bulk ink system SOLVES all these problems.

With a bulk ink system you just print and print and print without running out of ink or always changing cartridges.

Make you work easier with a bulk ink system for your Epson printer.
